### SITOP PSU8600/3AC/24VDC/40A PN

SITOP PSU8600 3AC 40 A PN stabilized power supply input: 400-500 V 3 AC output: 24 V DC/40 A with PN/IE connection web server integrated OPC UA server integrated

input	
type of the power supply network	3-phase AC
supply voltage at AC	
<ul> <li>minimum rated value</li> </ul>	400 V
<ul> <li>maximum rated value</li> </ul>	500 V
• initial value	320 V
• full-scale value	575 V
supply voltage at AC	Derating 320 360 and 530 575 V
wide range input	Yes
buffering time for rated value of the output current in the event of power failure minimum	15 ms
operating condition of the mains buffering	at Vin = 400 V; Prioritized supply of the output in case of power failure selectable via DIP switch (only in conjunction with CNX8600 expansion module)
line frequency	50/60 Hz
line frequency	47 63 Hz
input current	
<ul> <li>at rated input voltage 400 V</li> </ul>	2.75 A
at rated input voltage 500 V	2.2 A
current limitation of inrush current at 25 °C maximum	14 A
I2t value maximum	2.24 A²-s
fuse protection type	none
fuse protection type in the feeder	Required: 3-pole connected miniature circuit breaker 10 16 A characteristic C or circuit breaker 3RV2011-1DA10 (setting 3 A) or 3RV2711-1DD10 (UL 489)
output	
voltage curve at output	Controlled, isolated DC voltage
number of outputs	1
output voltage at DC rated value	24 V
output voltage	
at output 1 at DC rated value	24 V
output voltage adjustable	Yes; via potentiometer or IE/PN interface
adjustable output voltage	4 28 V; Derating > 24 V: 4%/V; max. 960 W overall system
relative overall tolerance of the voltage	3 %
relative control precision of the output voltage	
<ul> <li>on slow fluctuation of input voltage</li> </ul>	0.2 %
on slow fluctuation of ohm loading	0.1 %
residual ripple	
maximum	100 mV
voltage peak	
• maximum	200 mV
display version for normal operation	3-color LED for operating state device; LED for operating mode manual/remote;

	4 LEDs for communication DDOEINET: 2 color LED for congrating state output
type of signal at output	4 LEDs for communication PROFINET; 3-color LED for operating state output Relay contact (changeover contact, contact current capacity DC 60 V/0.3 A) for
type of signal at output	"Operating state OK"
behavior of the output voltage when switching on	No overshoot of Vout (soft start)
response delay maximum	1 s
type of outputs connection	Simultaneous connecting-in of all outputs after device booting or delay time of 25 ms, 100 ms or "load-optimized" for sequential cutting-in of the outputs via DIP switches can be set (only with expansion module CNX8600)
voltage increase time of the output voltage	
maximum	500 ms
output current	
• rated value	40 A
• per output	40 A
at output 1 rated value	40 A
rated range	0 40 A; +50 +60 °C: Derating 2.5%/K; no derating in connection with expansion module CNX8600 and total load of the outputs at the basic device max. 480 W
supplied active power typical	960 W
short-term overload current	
at short-circuit during operation typical	120 A; only in operation without CNX8600 extension module
duration of overloading capability for excess current	
at short-circuit during operation	25 ms
bridging of equipment	Yes; suitable output characteristics via DIP switch can be selected
number of parallel-switched equipment resources for increasing the power	2
efficiency	
efficiency in percent	93 %
power loss [W]	
<ul> <li>at rated output voltage for rated value of the output current typical</li> </ul>	72 W
during no-load operation maximum	20 W
closed-loop control	
relative control precision of the output voltage with rapid fluctuation of the input voltage by +/- 15% typical	0.1 %
relative control precision of the output voltage load step of resistive load 50/100/50 % typical	0.4 %
setting time	40
• maximum	10 ms
protection and monitoring	25 V/25 V 500 mg
design of the overvoltage protection	max. 35 V (max. 500 ms)
property of the output short-circuit proof	Yes
design of short-circuit protection	Electronic overload shutdown; optional constant-current operation can be selected via DIP switch
adjustable current response value current of the current- dependent overload release	4 40 A
type of response value setting	via potentiometer or IE/PN interface
switching characteristic	
• of the excess current	la >1.0<1.5 x la threshold permissible for 5 s; la limit (= 1.5 x la threshold)
	permissible for 200 ms
of the current limitation	
of the current limitation     overcurrent overload capability	permissible for 200 ms la limit (= 1.5 x la threshold) permissible for 5 s, afterwards la threshold
	permissible for 200 ms la limit (= 1.5 x la threshold) permissible for 5 s, afterwards la threshold
overcurrent overload capability	permissible for 200 ms la limit (= 1.5 x la threshold) permissible for 5 s, afterwards la threshold continuous
overcurrent overload capability  • in normal operation	permissible for 200 ms la limit (= 1.5 x la threshold) permissible for 5 s, afterwards la threshold continuous  Total system overloadable 150% la rated to 5 s/min
overcurrent overload capability  • in normal operation display version for overload and short circuit	permissible for 200 ms la limit (= 1.5 x la threshold) permissible for 5 s, afterwards la threshold continuous  Total system overloadable 150% la rated to 5 s/min  3-color LED for operating state device; 3-color LED for operating state output
overcurrent overload capability  • in normal operation  display version for overload and short circuit  design of the reset device/resetting mechanism	permissible for 200 ms la limit (= 1.5 x la threshold) permissible for 5 s, afterwards la threshold continuous  Total system overloadable 150% la rated to 5 s/min  3-color LED for operating state device; 3-color LED for operating state output via sensor or IE/PN interface
overcurrent overload capability  • in normal operation  display version for overload and short circuit  design of the reset device/resetting mechanism  remote reset function	permissible for 200 ms la limit (= 1.5 x la threshold) permissible for 5 s, afterwards la threshold continuous  Total system overloadable 150% la rated to 5 s/min  3-color LED for operating state device; 3-color LED for operating state output via sensor or IE/PN interface
overcurrent overload capability  • in normal operation display version for overload and short circuit design of the reset device/resetting mechanism remote reset function nterfaces	permissible for 200 ms la limit (= 1.5 x la threshold) permissible for 5 s, afterwards la threshold continuous  Total system overloadable 150% la rated to 5 s/min 3-color LED for operating state device; 3-color LED for operating state output via sensor or IE/PN interface  Non-electrically isolated 24 V input (signal level "high" at > 15 V)
overcurrent overload capability  • in normal operation  display version for overload and short circuit  design of the reset device/resetting mechanism  remote reset function  nterfaces  product function communication function	permissible for 200 ms la limit (= 1.5 x la threshold) permissible for 5 s, afterwards la threshold continuous  Total system overloadable 150% la rated to 5 s/min 3-color LED for operating state device; 3-color LED for operating state output via sensor or IE/PN interface  Non-electrically isolated 24 V input (signal level "high" at > 15 V)  Yes
overcurrent overload capability  • in normal operation  display version for overload and short circuit  design of the reset device/resetting mechanism  remote reset function  interfaces  product function communication function  design of the interface	permissible for 200 ms la limit (= 1.5 x la threshold) permissible for 5 s, afterwards la threshold continuous  Total system overloadable 150% la rated to 5 s/min 3-color LED for operating state device; 3-color LED for operating state output via sensor or IE/PN interface  Non-electrically isolated 24 V input (signal level "high" at > 15 V)  Yes  Ethernet/PROFINET
overcurrent overload capability  • in normal operation  display version for overload and short circuit  design of the reset device/resetting mechanism  remote reset function  Interfaces  product function communication function  design of the interface  • design of the interface PROFINET protocol	permissible for 200 ms la limit (= 1.5 x la threshold) permissible for 5 s, afterwards la threshold continuous  Total system overloadable 150% la rated to 5 s/min 3-color LED for operating state device; 3-color LED for operating state output via sensor or IE/PN interface  Non-electrically isolated 24 V input (signal level "high" at > 15 V)  Yes  Ethernet/PROFINET
overcurrent overload capability  • in normal operation  display version for overload and short circuit  design of the reset device/resetting mechanism  remote reset function  nterfaces  product function communication function  design of the interface  • design of the interface PROFINET protocol  protocol is supported	permissible for 200 ms la limit (= 1.5 x la threshold) permissible for 5 s, afterwards la threshold continuous  Total system overloadable 150% la rated to 5 s/min 3-color LED for operating state device; 3-color LED for operating state output via sensor or IE/PN interface Non-electrically isolated 24 V input (signal level "high" at > 15 V)  Yes Ethernet/PROFINET Yes

galvanic isolation	Safety extra low output voltage Vout according to EN 61204-7
operating resource protection class	Class I
leakage current	
• maximum	3.5 mA
protection class IP	IP20
EMC	
standard	
<ul> <li>for emitted interference</li> </ul>	EN 55022 Class B
<ul> <li>for mains harmonics limitation</li> </ul>	EN 61000-3-2
for interference immunity	EN 61000-6-2
standards, specifications, approvals	
certificate of suitability	
CE marking	Yes
UL approval	Yes; cULus-Listed (UL 508, CSA C22.2 No. 107.1), File E197259
<ul> <li>CSA approval</li> </ul>	Yes; cCSAus (CSA C22.2 No. 62368-1, UL 62368-1)
<ul> <li>EAC approval</li> </ul>	Yes
NEC Class 2	No
• SEMI F47	Yes
type of certification	
• BIS	Yes; R-41188271
CB-certificate	Yes
MTBF at 40 °C	235 118 h
standards, specifications, approvals hazardous environments	
certificate of suitability	
• IECEx	No
• ATEX	No
ULhazloc approval	No
• cCSAus, Class 1, Division 2	No
FM registration	No
standards, specifications, approvals marine classification	
shipbuilding approval	Yes
Marine classification association	
American Bureau of Shipping Europe Ltd. (ABS)	Yes
French marine classification society (BV)	No
Det Norske Veritas (DNV)	Yes
Lloyds Register of Shipping (LRS)	No
standards, specifications, approvals Environmental Product D	
Environmental Product Declaration	Yes
global warming potential [CO2 eq]	100
• total	2 295.1 kg
	41 kg
during manufacturing     during operation	
<ul><li>during operation</li><li>after end of life</li></ul>	2 252.9 kg 0.59 kg
ambient conditions	0.00 kg
ambient temperature	25 LGO: with natural convention
during operation	-25 +60; with natural convection
during transport	-40 +85
during storage	-40 +85
environmental category according to IEC 60721	Climate class 3K3, 5 95% no condensation
connection method	
type of electrical connection	Plug-in terminals with screwed connection
• at input	L1, L2, L3, PE: Plug-in terminal with 1 screwed connection each for 0.2 4 mm² single-wire / fine stranded
• at output	Output: plug-in terminals with 2 screw connectors for 0.5 10 mm²; 0 V: screw terminal with 3 screw connectors for 0.5 10 mm² (max. 6 mm² with ferrule)
for auxiliary contacts	RST (Reset): Plug-in terminal (together with alarm signal) with 1 screwed connection for 0.2 1.5 mm²
for signaling contact	11, 12, 14 (alarm signal): Plug-in terminal (together with Reset) with 1 screwed connection each for 0.2 1.5 mm²
removable terminal at input	Yes
removable terminal at output	Yes
·	

design of the interface for communication	PROFINET/Ethernet: two RJ45 sockets (2-port switch)
suitability for interaction modular system	Yes
nechanical data	
width × height × depth of the enclosure	125 × 125 × 150 mm
installation width × mounting height	125 mm × 225 mm
required spacing	
• top	50 mm
• bottom	50 mm
● left	0 mm
<ul><li>right</li></ul>	0 mm
fastening method	Snaps onto DIN rail EN 60715 35x15
standard rail mounting	Yes
S7 rail mounting	No
wall mounting	No
housing can be lined up	Yes
net weight	2.6 kg
accessories	
electrical accessories	Expansion modules CNX8600, buffer modules BUF8600, module UPS8600
mechanical accessories	Device identification label 20 mm × 7 mm, TI-grey 3RT2900-1SB20

additional information	
other information	Specifications at rated input voltage and ambient temperature +25 °C (unless otherwise specified)
security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is

sterieris provides products and solutions with intustrial cybersecurity functions. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
